

MOHAMED ABUBAKKAR

Python Full Stack Developer

Chennai, India | +91 850 840 6876 | mdabubakkar095@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Detail-oriented Python Full Stack Developer with a strong foundation in building scalable, production-style web applications across the full stack — Python, Django, Django REST Framework, React.js, JavaScript (ES6+), and relational databases (MySQL, PostgreSQL). Proven ability to design secure RESTful APIs, implement JWT-based authentication, and deliver responsive, user-focused interfaces using React Hooks and Bootstrap. Trained in Agile methodology, version control (Git/GitHub), and API testing (Postman), with a track record of independently building and shipping three end-to-end projects from concept to deployment-ready code. Looking to bring strong problem-solving skills and a fast learning curve to an entry-level Full Stack Developer role.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), HTML5, CSS3

Frameworks: Django, Django REST Framework (DRF), React.js, Bootstrap

Databases: MySQL, PostgreSQL, Django ORM, Django Migrations

Tools: Git, GitHub, Postman, Axios, REST APIs, Virtual Environments

Concepts: OOP, CRUD Operations, JWT Authentication, MVC Architecture, React Hooks, Agile, Responsive Design, API Integration

PROJECTS

Anti-Gravity AI Resume Analyzer

Technologies: Python, Django, React.js, AI/NLP, MySQL, REST APIs, Git

- Engineered a full-stack AI-driven application that parses, analyzes, and scores resumes against job descriptions, streamlining candidate-role matching.
- Designed Python-based parsing algorithms to accurately extract key skills, experience, and education from multiple document formats.
- Built an interactive React.js dashboard with dynamic charts, translating evaluation scores into clear, actionable feedback for users.
- Architected the MySQL schema via Django ORM to ensure structured data storage, fast history lookups, and minimal query latency.

Stock Portfolio Management System

Technologies: Python, Django, Django REST Framework, React.js, MySQL, Axios, Bootstrap

- Built a full-stack financial dashboard enabling users to track, manage, and analyze real-time stock portfolios and market data.
- Implemented secure, end-to-end CRUD operations for adding, updating, tracking, and liquidating stock assets.
- Developed RESTful APIs to compute live portfolio valuations, profit/loss margins, and asset allocation percentages.
- Delivered a responsive, chart-driven UI using React Hooks and Bootstrap, improving data readability for end users.

Expense Tracker

Technologies: Django, React.js, DRF, MySQL

- Developed a full-stack Expense Tracker web application using Django REST Framework and React.js.
- Implemented JWT Authentication, CRUD operations, search, and transaction filtering.
- Built a dashboard to track income, expenses, and balance with data visualization.
- Followed responsive UI design and RESTful API best practices.

TECHNICAL TRAINING

Python Full Stack Developer Certification — Login360 Institute, Chennai

- Completed a 6-month professional training program in Python, Django, Django REST Framework, React.js, and MySQL.
- Built full-stack web applications with REST API integration and JWT authentication as part of the curriculum.
- Gained hands-on experience across frontend development, backend development, database management, and Agile practices.

EDUCATION

Bachelor of Computer Applications (BCA)

Rabindranath Tagore University | Year of Passing: 2025 | CGPA: 7.2/10

SOFT SKILLS

Problem-Solving • Teamwork • Adaptability • Time Management • Innovative Thinking • Creativity
